Expenditures beyond means of private individuals are required for surveys, engineering, and the construction of reservoirs, canals, and other hydraulic works, for the purpose of irrigation in this State. We therefore favorliberal appropriations by Congress for surveys, both hydrographical and topographical, to use rtain how the waters of this State, which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known suitable aid may be obtained from Congress to en ble the Government of the United States to dispose of its lands, and to enable the people to settle upon and occupy the same.

XVII.

Reselved, That two year's experience has demonstrated that the present jury law which compels citizens, at their own expense, without regard to their pecuniary ability or the losses they may suffer, summarily to suspend their usual occupations, break their business engagements, travel long distances and remain from their homes for an uncertain period, and attend upon District Courts as jurymen, is a measure of unwise economy, often productive of great hardship and an unjust imposition of public burdens upon private individuals. We therefore demand of the next Legislature such legislation as shall secure to all citizens fair compensation for all the time which they spend and full reimbursement for all expenses which they incur in performing the duties of jurymen in the District Courts.

XVIII.

Resolved, that we point with pride and pleasure to the able and brilliant record made by our Senator in Congress, the Hon. John P. Jones, in his watchful and vigilant care of our interests anon all occasions, as are fully shown by his unanswerable speeches in Congress against the reduction of duties upon foreign manufacturers and foreign productions, which exposes in a masterly style and in a clear and forcible manner the free trade doctrines of modern Democracy.
